Ban Michigan Fracking Rally in Lansing, January 16

Governor Snyder:
The State of the State is
FRACKED

Rally in Lansing
State of the State Address

January 16, 2013
5:00 pm
Capitol Building
Lansing, Michigan

www.banmichiganfracking.org

Ban Michigan Fracking is organizing a rally for everyone who wants to show the world that we want to BAN fracking in our beautiful state.

Come to Lansing this **Wednesday, January 16**, outside the Capitol as the governor gives his State of the State address. Begin gathering at 5:00 p.m. We will be there until the end of the address (which starts at 7).

Look for the Ban Michigan Fracking banner.

Our governor embraces the frack industry with open arms. Most of the legislators in the audience want the frack industry here, too. (Maybe a few feign resistance by wanting fracking ... "regulated.")

To accept regulated fracking is to accept the entire frack industry--all of it. All the thousands of frack wells, all the pipelines, all the compressor stations, all the thousands of injection wells, all of the new natural gas plants. And with it, you accept all the contaminations, the people and businesses who will lose their precious water supplies, their health, their land, their land values, their crops and livestock. Fracking, even regulated, will transform the state into an industrialized, polluted wasteland. And we all will pay the price.

Help raise awareness of the serious threat to our state from fracking and join us.

Come with creative, handmade, **pro-ban** signs.
