

## **We launch an online petition to oppose the frack "reform" bills**

Ban Michigan Fracking launches an online petition today to notify state legislators to ban fracking and specifically to OPPOSE a package of bills introduced in November 2011. The bills would impose a similar set of frack-study, frack advisory panel and moratorium as we now see in New York state.

Sign the [PETITION](#) and help spread the word.

Read more about the bills in the Press Release and Oppose the Fracking "Reform" Bills Menus, above.
