Subject: Drilling Permit Application # A150095 Information

Mr. Dan Wyant
Director
Michigan Department of Environmental Quality
525 West Allegan Street
Lansing, MI 48909

Dear Director Wyant:

I am writing to obtain additional information on a drilling permit application number A150095. I have major concerns about the proximity of this oil well in Southfield, Michigan and near a residential area with a population over 70,000.

I would appreciate your assistance in answering the following questions:

- What is the timeline that you expect for the permit application? What is the deadline for your decision?
- Does the permit require high volume hydraulic fracturing?
- Will the Department of Environmental Quality (DEQ) hold a public hearing on this application?

If DEQ is not planning to hold a public hearing, I request a public hearing be held to hear the concerns of community members in this unique high density populated area. I would also appreciate a copy of the complete permit application.

Thank you in advance for your assistance in this matter. Please do not hesitate to contact me if you have any questions or concerns. I look forward to working with you.

Sincerely,

Jeremy Moss
State Representative
Michigan's 35th District
Assistant Democratic Floor Leader
