Please join us for an active discussion as we work to:

- Increase awareness of the state's extractive industries as valuable building blocks to Michigan's future, including economic benefits to the state's workforce and educational opportunities for students.
- Encourage investment and growth of Michigan's extractive industries through sound, factual, science-based policy development.
- Understand current perceptions of extractive industries, and the challenges and opportunities these industries face.
- Build collaborative partnerships between industries, communities and government.

Keynote speakers for the summit are Michigan Governor Rick Snyder and Anja Manuel, author, "This Brave New World"
